Thanks Francis, very helpful. Ivanka is excited for the event and we are working to finalize a date for late July. We envision an hour-long meeting in the Roosevelt Room followed by an Oval Office announcement.
Happy 4'th!

On Jul 1, 2017, at 11:59 AM, Collins, Francis (NIH/OD) [E] (b) (6) wrote:

Hi Reed,

It was very encouraging to speak with you yesterday and learn of the “tentative green light” for an announcement of the Partnership for Accelerating Cancer Therapies at the White House in the second part of July.

(b) (4)

I believe that the announcement of a July White House event would lead many of the companies in the “considering” category to make a decision. Not all will say yes, but I believe many will.

Let me know what else I can do to help move this forward.

Francis

Subject: OMB meeting for Monday!

Hi All,

Just saw this meeting has been scheduled for 11 am Monday 10/30. We need to provide pre-read by tomorrow. That will need to include a description of the research needs for opioids and pain (pretty much what we've been saying all along, but did we ever get feedback from ASFR?)

And then there needs to be an articulation of how the (b) (5) challenge would work. (b) (5)

(b) (5)

Thoughts? Please share ASAP. Rebecca, can you start a draft?

If the event were postponed until September, it's more likely that Ned would be on board at NCI. It could be beneficial for him and for NCI if he were to participate in the WH event, with the President, soon after being sworn in. Doug

>>Subject: PACT EVENT

>>

>>Dr. Collins, I attended the Presidents scheduling meeting yesterday and we are trying to fit many public events

into a short window. Our request is if we officially lock down a date for September (which can be announced publically by NIH as early as desired). Our hope is that can work for NIH but if that delay presents significant problems please let us know.
